

<b>Policy:</b>	SUSTAINABILITY
<b>Date Approved:</b>	Jan 28, 2025

Whenever possible, Don't Go Hungry will pursue strategies for sustainability, such as:

1. When possible, food products will be bagged in a reusable bag for distribution on Saturdays. To keep costs down and reduce the amount of plastic going into the community, we will be providing one reusable bag each week to a household and request that they return it the next time they come to pick up food.
2. DGH follows community recycling guidelines for plastics, compost, cardboard and other recyclable materials.
3. DGH minimized the use of non-reusable materials such as paper towels by using reusable cloths.
